---

## Objective

I am a motivated Bachelor of computer application graduate with knowledge of **Java, Spring Boot, HTML, CSS, JavaScript, and React.js**. I want to start my career as a Java Full Stack Developer. I enjoy solving problems and building web applications. I am ready to learn more, work with a team, and help create useful and high-quality software.

---

## Technical Skills

- Programming Language : Java, Java Script, HTML, CSS
  - Front-End Technologies : Bootstrap, React
  - Back-End Technologies : Spring Boot, JSP, JDBC
  - Database : MySQL
  - Data Formats : JSON
- 

## Internship

i5 Technologies

Chennai, TN

Java Full Stack Development

Dec-2024 to Jun-2025

- Built and integrated **RESTful APIs** for smooth communication between front-end and back-end systems
  - Designed and managed database operations using **MySQL**, including creating tables, writing queries, and handling CRUD operations.
  - Used **GitHub** for version control and source code management
  - Collaborated with a team to design and develop a responsive website for i5 VFX Studio, enhancing the studio's online presence.
- 

## Projects

**Food order website** - User : [Demo](#) Admin: [Demo](#)

Built a responsive and user-friendly Food order website with a **React.js** frontend and **Spring Boot** backend. The website includes an admin panel, features a clean and user-friendly interface, and is fully responsive making it accessible on any screen size

**Tools : Spring Boot, React.js, Bootstrap, HTML, CSS, JavaScript, MySQL**

**Personal Portfolio** - Link : [Demo](#)

This portfolio showcases my academic background, internship experience, and technical skills, with a focus on projects developed using React.js. It highlights my expertise gained through hands-on experience at I5 Technologies and demonstrates my ability to create innovative, user-centric solutions.

**Tools: React.js, Bootstrap5**

**Note Application** – Link : [Demo](#)

The Note Application is a simple, user-friendly web-based tool that allows users to manage their notes efficiently. Built using JavaScript, it features a responsive design that works seamlessly across all device screen sizes. This project offers an intuitive interface, making it easy to create, view, and organize notes effectively.

**Tools: HTML, CSS3, JavaScript, JSON, Bootstrap5**
